back pain and sciatica (*tip*), May, p. 355
bacteremia, streptococcal, Group A beta-hemolytic (*tip*), February, p. 428
bacterial antigens, latex agglutination kits for (*tip*), January, p. 346
bacterial meningitis
—acute illness two weeks after (*tip*), January, p. 336
—with normal CSF (*tip*), February, p. 421
bacterial peritonitis, spontaneous (*sci*), March, p. 223
baldness, female-pattern, minoxidil may be useful for (*med*), March, p. 299
balloon dilatation of aortic coarctation (*tip*), February, p. 408
balloon tamponade shows promise in bleeding duodenal ulcers (*med*), January, p. 252
barium enema
—accuracy of, in childhood appendicitis (*tip*), March, p. 383
—endoscopy vs., for colon cancer detection (*tip*), June, p. 237
battered woman (*sci*), January, p. 193
Becker's nevus (*sci*), May, p. 221
beta blockers
—calcium channel blockers plus, for angina (*tip*), February, p. 356
—lipophilic, improve mental performance (*med*), February, p. 349
binge eating, purging and adolescent depression (*tip*), February, p. 382
biopsy, punch, for diagnosis of pigmented skin lesions (*sci*), June, p. 123
bladder cancer, cytologic techniques in the diagnosis of (*tip*), January, p. 255
blood pressure monitoring in panic disorder (*tip*), February, p. 417
blood transfusion, perioperative, and immunosuppression (*tip*), May, p. 364
bone loss in patients with hyperthyroidism (*tip*), February, p. 382
Bouveret's syndrome, diagnostic considerations in (*tip*), March, p. 341
bowel preparation for colorectal operations (*tip*), March, p. 406
brain scans, preoperative, in breast cancer patients (*tip*), June, p. 261
breast cancer
—pericardial effusion associated with (*tip*), January, p. 273
—premenopausal, hormone receptor status in (*tip*), January, p. 293
—resectable, second malignancies after (*tip*), January, p. 323
—use of mammograms to detect (*FDA*), March, p. 415
—in young women, family history is key risk for (*med*), June, p. 219
breast cancer detection, early (*tip*), January, p. 256
breast cancer patients
—natural cytotoxic activity in (*tip*), May, p. 374
—preoperative brain scans in (*tip*), June, p. 261
breast reconstruction results, subcutaneous mastectomy may improve (*med*), June, p. 220
bronchitis, chronic, hydration and sputum production in (*tip*), February, p. 353
bronchopulmonary aspergillosis, allergic (*sci*), January, p. 177
bronchopulmonary dysplasia, home oxygen treatment of (*tip*), January, p. 289

burned children, hyperbaric oxygenation is not needed for (*med*), April, p. 273
burns, electrical, neurologic consequences of, reported (*med*), May, p. 290
bypass grafting, coronary, heart rate responses after (*tip*), March, p. 316
bypass grafts
—coronary artery, acute occlusion of (*tip*), May, p. 309
—coronary, right gastroepiploic artery for (*tip*), March, p. 350

C

CA 19-9, serum, after surgery for pancreatic cancer (*tip*), February, p. 403
cactus spine removal (*tip*), March, p. 408
caffeine, psychotropic effects of (*sci*), May, p. 167
calcium channel blockers
—plus beta blockers for angina (*tip*), February, p. 356
—gynecomastia and (*tip*), May, p. 302
—for peripheral vascular disease (*tip*), April, p. 314
cancer
—bladder, cytologic techniques in the diagnosis of (*tip*), January, p. 255
—breast, detection, early (*tip*), January, p. 256
—breast, pericardial effusion associated with (*tip*), January, p. 273
—breast, premenopausal, hormone receptors in (*tip*), January, p. 293
—breast, resectable, second malignancies after (*tip*), January, p. 323
—breast, use of mammograms to detect (*FDA*), March, p. 415
—breast, in young women, family history is key risk for (*med*), June, p. 219
—children with, varicella-zoster infection in (*tip*), March, p. 401
—colonic, gastric and, *ras* oncogene p21 in (*tip*), March, p. 320
—colorectal, mass screening for (*tip*), January, p. 294
—colorectal, results of mass screening for, are reported (*med*), February, p. 349
—esophageal, nonsurgical treatment of (*tip*), May, p. 312
—gastric and colonic, *ras* oncogene p21 in (*tip*), March, p. 320
—gastric, esophageal and, marker is found for (*med*), January, p. 252
—of the head and neck, combination chemotherapy for (*tip*), May, p. 293
—liver, percutaneous ethanol injection represents new treatment for (*news*), February, p. 458
—lung, survival in (*tip*), June, p. 243
—ovarian, flow cytometric ploidy status in (*tip*), June, p. 231
—ovarian, second-look laparotomy in (*tip*), January, p. 280
—ovarian, survival in (*tip*), March, p. 374
—pancreatic, serum CA 19-9 after surgery for (*tip*), February, p. 403
—rectal, sexual function after surgery for (*tip*), February, p. 443
—thyroid, aerodigestive tract invasion by (*tip*), June, p. 278
—thyroid, diagnostic imaging techniques in (*tip*), June, p. 238
cancer patients
—preoperative chest x-rays are important in (*med*), January, p. 252
—pulmonary embolism in (*tip*), March, p. 393
cancer treatment, sexual complications of (*sci*), March, p. 159
carbon monoxide poisoning, occult (*tip*), May, p. 380
carcinoid tumors, metastatic, combination chemotherapy for (*tip*), March, p. 342
carcinoma
—renal cell, bilateral (*sci*), May, p. 121
—renal cell, recombinant interferon for (*tip*), January, p. 361
—renal cell, with venous involvement (*tip*), January, p. 315
cardiac arrest due to coronary artery spasm (*tip*), April, p. 324
cardiac atrophy associated with weight loss, exercise prevents (*med*), February, p. 350
cardiac complications of endoscopic sclerotherapy (*tip*), March, p. 402
cardiac contusion in nonpenetrating chest injury, frequency of (*tip*), May, p. 345
cardiac death, sudden, associated with exercise (*tip*), May, p. 310
cardiac disease, school absence and (*tip*), March, p. 325
cardiac pacemakers, unwarranted (*tip*), March, p. 322
cardiac pacing, atrial natriuretic peptide with (*tip*), January, p. 290
cardiac problems following Kawasaki disease (*tip*), April, p. 347
cardiac syncope (*tip*), January, p. 305
cardiac tamponade due to pneumopericardium (*tip*), April, p. 327
cardiac tumors (*sci*), February, p. 301
cardiac valve problems in adults with Down's syndrome (*tip*), January, p. 358
cardiomyopathy and ectodermal dysplasia (*tip*), May, p. 331
cardiovascular features of Marfan syndrome (*tip*), February, p. 440

carotid artery, internal, asymptomatic occlusive lesions of (*tip*), April, p. 317
carotid artery aneurysms, internal, new procedure successfully removes (*news*), February, p. 453
cataracts in infancy (*tip*), April, p. 368
catheters, urethral, long-term, in older women (*sci*), April, p. 103
cerebral palsy
—asymptomatic newborns and risk of (*tip*), March, p. 315
—and perinatal care (*tip*), May, p. 309
cervical esophagus, penetrating injuries of (*tip*), April, p. 308
cervigrams, comparison of Pap smears and (*tip*), June, p. 249
cesarean births, decreased, active management of labor and (*tip*), May, p. 360
cesarean delivery, vaginal birth after (*sci*), June, p. 167
chancroid (*tip*), April, p. 332
chemotherapy
—combination, for AIDS-related lymphoma (*tip*), February, p. 388
—combination, for cancer of the head and neck (*tip*), May, p. 293
—combination, for metastatic carcinoid tumors (*tip*), March, p. 342
—radiotherapy and, after mastectomy (*tip*), February, p. 421
—surgery and, for medulloblastoma (*tip*), February, p. 387
chest injury, nonpenetrating, frequency of cardiac contusion in (*tip*), May, p. 345
chest syndrome, acute, in children with sickle cell disease (*tip*), May, p. 377
chest x-rays, preoperative, are important in cancer patients (*med*), January, p. 252
child
—with fever, young (*sci*), June, p. 196
—with short stature (*sci*), January, p. 230
childhood
—primary hemochromatosis in (*tip*), February, p. 359
—sclerosing cholangitis in (*tip*), March, p. 366
